

From plant to product to you.

From the moment our aloe is planted in the ground until it reaches your hands, we control the process.

The 'from plant to product to you' philosophy means not only do we own the ground that the aloe grows in, we control how it is harvested, manufactured, packaged and transported to ensure you receive the highest quality aloe at the best available cost.

The Forever Difference.

- + Our aloe products were the first to receive the International Aloe Science Council's Seal of Approval for content and purity.
- + Our aloe is hand harvested and hand filleted to delicately extract the potent inner leaf gel and provide you with the purest, freshest aloe vera gel. This inner leaf gel is then aseptically processed within hours of harvest right at our farms to seal in the freshness.
- + Throughout our manufacturing process, we perform over 1.4 million quality tests per year to ensure you get to enjoy the power of aloe vera, just as nature intended.

Forever maintains full control over the growing and manufacturing of our aloe vera.

Our aloe is processed right at our farms within hours of harvest to seal in the freshness.

The Aloe Vera Company

We consider ourselves to be the aloe experts. We are proud to be the largest grower and manufacturer of aloe vera and aloe vera based products in the world.

We have dedicated ourselves to seek out nature's best sources for health and beauty and share them with the world. At Forever, we combine pure aloe vera with natural and scientifically advanced ingredients specially selected to complement and enhance the benefits of aloe.

FOREVER®

Drink
in the
benefits

Aloe has been celebrated for thousands of years for its natural soothing, cooling and moisturising properties.

Many people use aloe to soothe minor burns or comfort and moisturise stressed skin, but aloe also has amazing benefits to support your health from the inside out!

Why aloe?

Supports healthy digestion

Aloe Vera has natural cleansing abilities that help the digestive tract absorb nutrients from the foods we eat into the blood stream, while at the same time promoting friendly bacteria growth.

Promotes a healthy immune system

Aloe vera contains unique polysaccharides and other nutrients that help to modulate and support the immune system.

Helps maintain natural energy levels

Aloe vera is rich in vitamin C and is known to help maintain natural energy levels.

Dental health and hygiene

Aloe vera is extremely beneficial for the mouth and gums. A daily serving or two of Forever's aloe vera drinks may support healthy oral hygiene.

Pure

Imagine slicing open an aloe leaf and consuming the gel directly from the plant. Forever Living's signature aloe vera drinks are as close to the real thing as you can get!

99.7%
inner leaf aloe vera

Purists will love Forever Aloe Vera Gel® made with 99.7% pure inner leaf aloe vera. The gel is hand-extracted within hours of harvest to ensure you get the freshest gel with all the benefits and nutrients still intact.

- + Gluten free
- + No added preservatives
- + Sugar free
- + Rich in Vitamin C
